

Sito dell'Ulmo 2021

Menfi DOC

100% Merlot

Sito dell'Ulmo is a single-variety Merlot from a single vineyard. Years of experience helped us identify on the banks of Lake Arancio, among the vines planted at Ulmo in 1987, the ideal place to obtain the best from this classic French variety.

FIRST VINTAGE
1995

DISTRICT OF VINEYARD
Sambuca di Sicilia (AG)

VINEYARD
Ulmo

WINERY
Ulmo

CERTIFIED
SOStain®

TYPE OF SOIL: soils of average texture, from average depth to deep with an abundant structure consisting of pebbles, moderately limey with sections of dark vegetable soil.

ALTITUDE: 195 metres above sea level

YIELD PER HECTARE: 85 quintal.

TRAINING SYSTEM: espalier with Guyot pruning system.

PLANTING DENSITY: 4.545 plants per hectare.

METHOD OF CULTIVATION: according to the criteria of organic agriculture and SOStain® protocols; ground cover with berseem and underground clover, beans, vetch, mustard and wild plants; plant health protected with minimal amounts of sulphur and copper; phytophages deterred with useful insects and sexual confusion.

HARVESTING PERIOD: 15th - 21st September.

VINIFICATION: Merlot grapes from Ulmo vineyards are gathered by hand, placed in 15 kg crates and taken immediately to the winery; here they are pressed and destalked, and the must placed in stainless steel tanks where the alcohol fermentation begins. The grapes are stirred 2/3 times a day with very short pumping – between 15/20 minutes – according to the stage of fermentation, so as to protect the skins as much as possible and thus enhance the complexity of the wine.

The fermentation lasts 6/8 days, with the temperature during the early stages maintained around 16 °C, during the second phase at 20-22 °C and finally, when approaching its conclusion, at 25-26 °C, suspending the refrigeration.

When the fermentation is complete the wine is

decanted, the lees removed and the wine transferred to French oak barrels for a 14 month maturation.

The malolactic fermentation occurs entirely in the barrel.

MATURATION: Allier oak barrels, 50% new, 25% second usage; 25% 3rd usage.

BOTTLING: June 2023

ALCOHOL CONTENT: 14% vol.

TOTAL ACIDITY: 6,33 g/l

PH: 3,38

AGEING CAPACITY: to drink at once or to age for up to 10 years.

BOTTLE SIZE: 0,75 l, 1,5 l, 3 l, 5 l, 9 l, 12 l

WEIGHT OF BOTTLE: 500 g (0,75 l)

CORK: single piece natural cork.

TASTING NOTES: A wine which attracts and conquers you gently. Its uniqueness emerges especially in the versatile and lively structure of its tannins and the savoury and intense strength of its flavour. This version of Merlot of compact ruby colour, very rich with the sweet juice of black currant and candied violet which alternate with thyme and lavender, cannot be ignored either by the palate of an experienced connoisseur or by that of an enthusiastic amateur. It is a multi-faceted and intriguing red wine which combines the pleasure of the tannins with an extraordinary length of tasting.

PAIRING: although it can be drunk alone with great pleasure, its elegance renders it suitable with white meats cooked with complex sauces. Or with a delicately cooked fish without lemon, even accompanied by roast green vegetables.

NOTES ON THE VINTAGE - MENFI 2021

During the agricultural year – that is October 2020 to September 2021, rainfall in the south-east was 40% less than the ten-year average. Definitely a memorable figure, and remedied with the necessary irrigation. Budding occurred slightly earlier than usual but the onset of spring did not accentuate the process; we arrived at harvesting about a week early. During the summer months – crucial for quality in Sicily – it is true that there were some very hot days but also that, numerically, there were fewer extremely hot days than in years such as 2017. What made the harvest definitely promising was the amount of summer rainfall, which was abundant for a Sicilian summer, in June, July and August. In between, dry days which were perfect for harvesting. A magic wand!

These rains mitigated the effects of the heat and presented us with a very special harvest at Menfi. Here in the west we had the best quality that could be hoped for, particularly with the red French varieties on the hill Merlot definitely most of all with excellent quality colour and tannins. Perfectly healthy grapes, in quantity more or less between that of the 2020 and 2018 harvests, and generally the average production of a regular harvest.
